ARTS & CULTURE

DAR AL-MA'MÛN ARTS CENTER

Fellah Hotel and the Dar al-Ma'mûn Arts Center (DAM) are conceived as a unique space where a luxury hotel finances an internationally renowned, UNESCO labeled, Arts Center. DAM hosts an artist residency in visual arts and literature, a research center in literary translation and a library, rich of more than 10.000 books in french, english and arabic. DAM's team will also lead our guests through Marrakech's cultural scene and, during school holidays, propose the children various playful and cultural programs, often conducted by artists staying in residency!

Since we believe that luxury is a mindset and resides in our ability to experiment change and to freely define ourselves accordingly, the coexistence of both entities Fellah and DAM creates a multi-disciplinary platform leading to a singular experience where people can meet and learn from each other.

Our aim is to increase the dialog and create bridges between people, regardless of their age, origin or social background and thus encourage change and what we believe to be a luxurious way of living.

SOCIAL ENGAGEMENT

In order to be fully involved in its settlement zone: Tassoultante, Dar al-Ma'mûn has established a partnership with the Moroccan Fondation Zakoura Education. Together we provide educational programs for the nearby village including activities for children and literacy classes for women. DAM's childcare staff conducts preschool and extracurricular activities for more than 300 children in school support, IT (computer) and artistic awakening. The adult literacy program welcomes 30 women aged 30 to 65. In a one year program, tangible results took place, as for example: teaching the mothers how to use public transportation and give them the basic tools to accompany their children in their homeworks.

In addition to these actions, Fellah Hotel is keen to employ Moroccans at all positions in the company!
